## 1948 Spring Price List

**TERMS:** Cash with order, check, draft or money order. **POSTAGE** is paid on all orders over \$3.00. On smaller orders please add 35c for packing and postage. We make no substitution of varieties unless second choice is given, and if stock is sold out refund will be made.

We guarantee good, healthy stock, true to name, and that it reaches you in good condition, but we cannot guarantee the growth in your garden.

Any error on our part will be carefully corrected for our success depends on your being satisfied. Include 3% sales tax if order is to be delivered in this state.

**FREE**—On orders of Iris and Daylilies over \$10.00 we allow you to choose one-third more of the total of your order as a gift. For instance, if your order is \$12.00 you may choose any Iris or Daylily in this list up to \$4.00 **FREE**.

### HEMEROCALLIS or DAYLILIES

Daylilies are easily grown and are so effective in the perennial border, in the foreground of the shrubby border, for naturalizing through partly shaded woods, along the banks of lakes and streams and are adaptable to any climate. They can be planted any time of the year when the ground is not frozen, but our experience has been that they do better if planted in the spring or just after they are through blooming. The rapid development and improvement in Hemerocallis is giving us splendid new varieties to brighten our gardens at a time of year when there is a scarcity of bloom in our borders. We now have beautiful Daylilies, up to eight inches across, in shades that vary from pinks, reds, wines, maroons to purples, in many interesting shapes and forms.

We are listing only "tried and true" varieties that have proven to be worthwhile and that will be a joy to you.
